

LUIZ ROSS

Bachelor's Student in Data Science

São Paulo, SP | (11) 94444-8851 | github.com/ross-lh | lhbenross@gmail.com

PROFILE

Technology student with academic experience in developing Full Stack projects for the Web, installation and maintenance of computer systems and networks. I am interested in the areas of programming, data and related. I am looking for my first opportunity in the technology area.

PROFESSIONAL EXPERIENCE

Supply Chain Intern (2022) | Festo Brasil

I participated in the implementation of Python automation that increased the team's productivity by 30%, generating spreadsheets with essential data in less than 15 minutes.

Acoustic Engineering Intern (2020 – 2024) | CLB Consulting Engineering

I studied the basics of acoustics, and, due to the fast learning, I was hired in 6 months.

Junior Environmental Analyst (2023 – present) | CLB Consulting Engineering

I perform interstate noise measurements autonomously and in a team that represents 60% of the company's services and actively participated in the entire process of assessment of the company by the national regulatory body, assisting in the implementation of the quality system and general control of services, increasing sales and services by 20% and accelerating their delivery by 50%.

SKILLS

Stack: HTML5, CSS3, JavaScript, PHP, MySQL, Python.

Languages: Fluent English, Basic German, Basic Spanish.

TRAINING

Web Dev Technician (2017 – 2019) | Technical College Lauro Gomes - HTML, CSS, JS, PHP and MySQL

Undergrad in Science and Technology (2020 – 2025) | Federal University of ABC (not completed)

Bachelor's degree in Data Science (2025 – 2029) | Virtual University of the State of São Paulo

CERTIFICATION

Discover (2025) | Rocketseat – HTML, CSS and JavaScript essentials

GFT Start #6 (2024) | DIO.me – Java essentials

Technical Support Fundamentals (2020) | Google

IT Essentials (2018) | Cisco Networking Academy
